Tetleys X Cutex

The Mission for this project is to MIX brands of Tetely's Beer and Cutex. Tetelys Beer has very strong and powerful brand identity main colours. And the brand of Cutex brings the feeling of softness and clean.

I've designed this project based on the style concept such as the main colours and font typeface from Tetleys, and all the contents item from Cutex brand.

The Goal on this building website is making people instantly see this website as Tetelys brand when they click the website and then after they read the text or details, they might find out it's all about Cutex brand.
